

boom—a loud deep sound with much resonance

... as of a distant cannon or

an earthquake

a rapid advance in prices

or a sudden bound of activity in any business

truth and the consequences that follow from it, as when

one “lowers the boom”

the effective launching of anything upon public attention

an impetus given to any movement or enterprise

a long beam from which a microphone is suspended

to capture conversations in a crowd

a spar run out to extend a ship’s sail

a pole set up to mark the course

of the deep water

the cry of the bittern
